ANNUAL REPORT- ACADEMIC YEAR 2020-21

Pandemic was sudden an unprepared global issue faced with courage and positivity. The challenge was even harder in the education sector since we deal with the learning of every individual for their own future and that of the universe. An optimist looks at every challenge as an opportunity and comes out with the best suiting solution that fits into their problem. The educational institutions exist because of the learners and the mission is to accomplish learning without hindrance. Obstacles were many throughout the race, yet joyfully experienced with a pleasant face. The foremost hurdles are we well equipped to provide uninterrupted learning experience to the student? Technology came as life savior and the spirit of adapting to the new style of teaching was high in our teachers as ours is a tech savvy school. Timely training sessions conducted in small batches making the teachers comfortable learners. A beautiful inherent feature of a Teacher is 'Read to Learn'. The hurdle no more remained as every teacher mastered the new style nothing less to a technically sound individual.
